**Products**

Modular power components and power systems for converting, regulating and controlling electric current.

Customers

The applications in which our products are used are in the higher-performance, higher-power segments of the power systems markets. Our products are sold worldwide to customers ranging from smaller, independent manufacturers of highly specialized electronic devices to original equipment manufacturers (OEMs) and their contract manufacturers. Industries served include aerospace and aviation; defense electronics; enterprise and high performance computing (including large scale datacenters and supercomputers); industrial automation; instrumentation and test equipment; medical diagnostics; telecommunications and network equipment and infrastructure; transportation infrastructure; and vehicles (including autonomous driving and electric and hybrid electric vehicles).

Manufacturing

Power components are manufactured using highly automated processes in Vicor's ISO 9001:2015 registered facilities in Andover, MA.

Customer Support

Vicor serves its customers through several sales channels: a direct sales force; a network of independent sales representative organizations in North America and South America; independent, authorized non-stocking distributors in Europe and Asia; and three authorized stocking distributors worldwide. Field Applications Engineers, who are

located in all of our offices, provide direct technical sales support worldwide by reviewing new applications and technical matters with our channel partners in support of existing and potential customers. Vicor's Customer Service staff works to insure that each customer receives a rapid and professional response for each business transaction.

Calibration

Computerized calibration system for Inspection, Measuring and Test Equipment, in accordance with ISO 9001: 2015, which includes National Institute of Standard and Technology (NIST) traceable documented calibration control standards. All calibrated instruments have labels attached indicating gage ID number, date of last calibration, calibration technician identification and next calibration due date.

Net Revenues for the years ended December 31 (000's):

2017	\$227,830
2016	\$200,280
2015	\$220,194
2014	\$225,731
2013	\$199,160

Number of Shifts

BBU:	2 shifts/5 days per week (plus partial 3 rd shift)
VI Chip:	3 shifts/5 days per week

Quality System

Quality Manual: Copy is available upon request

Quality System Certification: ISO 9001: 2015
Certificate Registration Number: 951 00 0665
Date Issued: November 8, 2017
This certificate is valid until: November 30, 2020
Registrar: TUV SUD America Incorporated

CERTIFICATE

The Certification Body of
TÜV SÜD AMERICA INC.

hereby certifies that

VICOR Corporation
25 Frontage Rd
Andover, MA 01810 USA
(see page 2 for additional locations)

has implemented a Quality Management System
in accordance with:

ISO 9001:2015

The scope of this Quality Management System includes:

Design, Development, Sales, Manufacture and Marketing of High-Density Modular Power System Components, Complete Power Systems to Power Contemporary Electronic Circuits, and Power Management Solutions Including High Performance Analog and Mixed Signal Technologies

Certificate Expiry Date: November 30, 2020

Certificate Registration No: 951 00 0665

Effective Date: November 8, 2017
